FARCRY 6

The son of a former dictator, **ANTON CASTILLO** was groomed from childhood to rule. When a revolution killed his father and stole the future he was owed, he devoted his life to reclaiming what he believes is rightfully his.

After a controversial campaign, Anton is elected **PRESIDENT OF YARA** on the promise of returning his country to its former glory. He believes he knows what is best for Yara but that paradise comes at a cost - and not everyone deserves a place in it. In a short period of time, he effectively declares himself president for life and begins to violently suppress those who oppose him, using them as forced labor to **RESTORE YARA TO PROSPERITY.**
